DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-7 and 17-33 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Thornberry (2,920,693). The single coil, two-operator controller is readable on elements 28-32. Elements 31 and 32 are readable on the bobbins and elements 28-29. The spaced apart operators are readable on elements 20 and 60.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Reinicke (5,404,871⁹⁰⁸ and 5,450,871). The single coil is readable on element 10 and the bar is readable on element 25. Elements 26-27 are readable on the two operators. The sleeves are readable on element 60 that surrounds the operators 26 and 27.

Allowable Subject Matter

Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 17-36 are allowed.

Election/Restrictions

Applicant's election without traverse of claims 8-16 in Paper No. 10 dated May 13, 2003 is acknowledged. Note that the claims selected on the merits should have been 1-7 and 17-36 rather than 1-7 and 17-33. Such has been acknowledged as indicated in the above allowed claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
